Digital Resources for the Classroom & School Community – Free in 2011-12

...affordable even in a difficult budget year! Save \$\$ & increase your instructional resources

Find out how your school can provide digital resources and professional development for your school community at an incredible price in 2011-12. Join the 300+ other schools participating in the California Learns Buying and Licensing Consortium and provide access to these resources for your teachers, students and parents through the California Learns Instructional Resource Portal!

Learn360 Streaming Video \$ - Learn360 is an interactive media-on-demand service for the K-12 educational market that provides educators and students the power to meet and exceed 21st century educational expectations across all curriculums.

EBSCO Host \$ - The Ultra Online Package: K-12 Version which includes the MAS Ultra School Edition, the Professional Development Collection, ERIC, Newspaper Source, Health Source: Consumer Edition, TopicSearch and the Points of View and Literary Reference Center.

Espresso Elementary \$ for Pre-K to 5th grade is a cross-curricular, multimedia learning site with a wide range of interactive, video-rich classroom resources that inspire children to learn.

AP Images Database \$: An unparalleled online resource for primary source news photos from Associated Press. In the near future, an audio database of sound files will also be a part of the collection. AP Images contains over 3.5 million news photographs from the 1840's through today with more than 3,000 photos being added every day. These can be used by teachers, students and parents for any school related project

World Book Online \$: Includes the following World Book resources for K-12. World Book Student, World Book for Kids, World Book Discover, World Book Spanish Encyclopedia, World Book Advanced, World Book Atlas, World Book Dictionary, World Book Living Green.

Recipes4Success \$ - is a comprehensive set of online resources designed to help infuse technology into your curriculum. Recipes4Success supports technology integration, providing tutorials and just-in-time references for common classroom software titles. Integrated tools help you create printable graphic organizers you can use as project foundations, rubrics and checklists to support authentic assessment, and more.

Curriculum Companion \$: Support for teachers integrating technology with the State Adopted English Language Arts textbooks

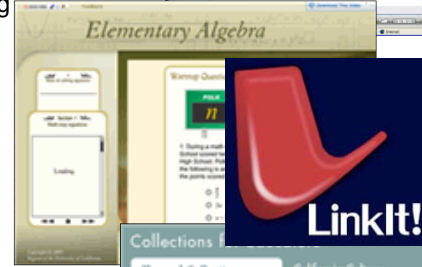

EdTech Live Tutorials and Technology Resource \$: Includes hundreds of technology and classroom integration resources for teachers including multimedia technology tutorials, Web 2.0 help such as how to create a podcast, use wikis and blogs, how to edit video and more.

Live Online Professional Development Workshops - provided using our live online meeting technology. These are two-hour professional development workshops that teachers may participate in from home or school. Teachers may also receive a letter of completion for two hours of professional development.

Resources for Parents: Many resources are also available to parents including those for keeping their children safe on the Internet, helping them with homework, and more.

LinkIt! Student Data & Assessment System: The LinkIt system seamlessly connects assessment results to a vast library of instructional resources so there is no question or confusion about how to put data into practice.

Supplemental Curriculum Resources and Tutorials: links to hundreds of supplemental curriculum resources in all subject areas.
